

## **New Micro Filters:**

We offer new Micro Filters with improved designed and features.

## **Second hand filters:**

There has been an increased demand for second hand Micro filters in the market. If your company has an old Micro filter or save all we are happy to purchase or redistribute

## **Repair & rebuild of old existing filters:**

Viking filtration also offers a complete repair or rebuild program of your old existing filter. Our objective is to rebuild your old equipment to meet the original performance and specifications or even better, get the extended life and maximum operation efficiency out of your Micro filter.

## **Turn-key projects:**

When desired we can also provide complete turn-key projects where we take responsibility of the whole project, from engineering to start-up.
